

1. Open this file: https://github.com/phively/vba-the-one-macro/blob/master/The_One_Macro.xlsm?raw=true

2. If prompted, Enable Editing and Enable Macros

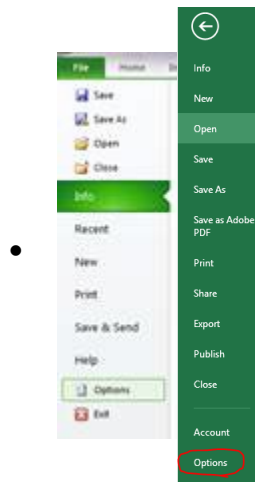

-  PROTECTED VIEW Be careful—files from the Internet can contain viruses. Unless you need to edit, it's safer to stay in Protected View. Enable Editing X
-  SECURITY WARNING Macros have been disabled. Enable Content

3. File -> Save As -> .xlsm. (Depending on your version of Excel you may also have to click “Browse” to open the file explorer.) Do not change the default folder:

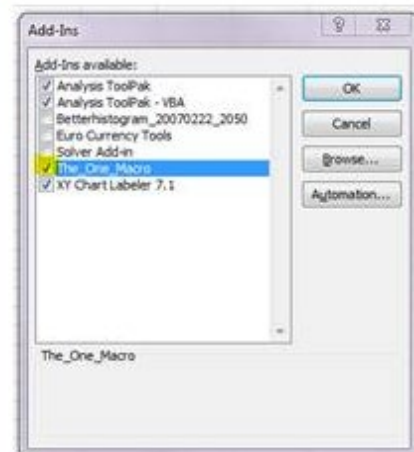

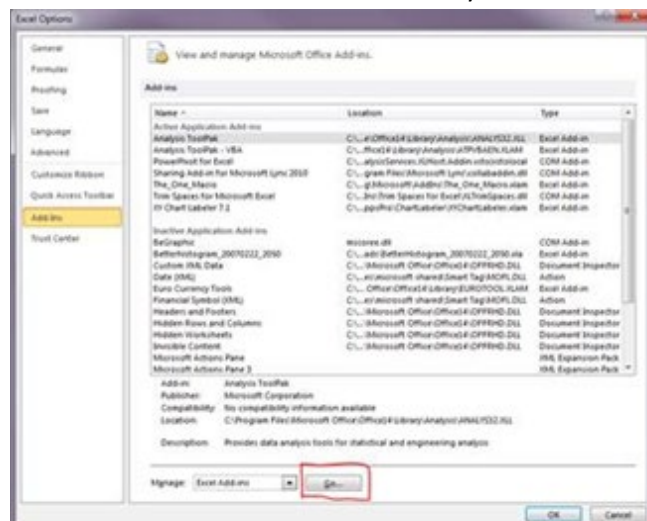

4. Close out of Excel

5. Open a new Excel window and go to File -> Options

6. Navigate to Add-Ins -> Go and check the box by The One Macro

7. Go back to File -> Options
8. Select Quick Access Toolbar, change "Choose commands from:" to Macros, and move over whichever you want to show up as icons!
